COPPER GUARD MASK™

THE COPPER GUARD ADVANTAGE

HUMN

WE ARE HUMN

At HUMN Pharma, we stand for a more ethical approach to healthcare; one where the client is involved and informed; one where the company and the products enable the body to heal itself. We are staking a claim to a new and disruptive evolution in the healthcare space rooted in the right values, upon which consumers, clients and our stakeholders have been waiting for and deserve.

Courageous in our decisions and actions, we strongly believe that good business means a better world. At HUMN Pharma, we carry highly effective, clinically proven and adverse-free products so that we may safely help everyday people with everyday problems.

HUMN

HEIQ MetallIQ COPPER GUARD MASK™

Textiles provide large hosting surface areas for bacteria and viruses, many of which may stay active on surfaces for days to months leading to sickness and mortality. Copper acts as a potent “antibacterial and antiviral” substance, which when applied to textiles reduces the transmission of disease, by reducing pathogens and providing antimicrobial efficacy.

HUMN Pharma Copper Guard Antiviral Textile Technology uses 99% pure copper, is highly anti-microbial and covers the maximum surface area without altering the physical properties of the material resulting in unprecedented efficacy and the ability to destroy viruses and bacteria within minutes.

PETER DOHERTY INSTITUTE CLINICALS

HEIQ MetallIQ **COPPER GUARD MASK™** is among the first textile technologies in the world to be proven effective against **SARS-CoV-2** in the laboratory. Tests conducted by *Peter Doherty Institute for Infection and Immunity* in Melbourne, Australia (*Doherty Institute*) showed that treated fabric achieved **99.86%** reduction of the virus.

The latest testing with SARS-CoV-2 virus was conducted by researchers at the *Doherty Institute*, a joint venture between the *University of Melbourne* and *The Royal Melbourne Hospital*, an internationally renowned institution combining research, teaching, public health and reference laboratory services, diagnostic services and clinical care into infectious diseases and immunity.

BENEFITS OF HEIQ MetallIQ COPPER GUARD MASK™

- Antiviral and Antimicrobial Textile Technology.
- Reduces the transmission of diseases and pathogens.
- **99.86%** bacterial filtration efficiency.
- Effective against SARS/COV-2
- Ultra Thin, Breathable, Comfortable and Easy to Use.
- HUMN Pharma personnel uses the mask on average for 10 days before replacing.
- Good for 24 hours in the health care environment.

Please note: Using a lot of hand sanitizer and then touching the mask will lead to faster oxidation. Although this affects the appearance of the mask, it does not affect the efficacy of the mask and does continue to kill the virus on contact.

HOW TO WEAR THE HEIQ MetallIQ COPPER GUARD MASK™

- Wash your hands or use hand sanitizer before putting on your mask.
- Handle by the loops and check condition of mask. If visibly damaged, discard the mask.
- Put the mask over your nose and mouth, with the copper side facing out.
- Secure it under your chin.
- Fit the mask snugly against the sides of your face, slipping the loops over your ear.
- Mold or pinch the stiff edge to the shape of your nose.
- Make sure you can breathe easily.
